Equus College of Learning & Research

EMRT™® CMRT™®

*The official & original Bowen on animals
Endorsed by the BTAA*

www.emrt.net.au

emrt.ali@bigpond.com

Ph: +61 0418 455 801

Our Human classes are often carried out in the open air where the animals can watch as we learn how to balance the body of the rider; Before any work is carried out on animals, the students learn about feel and timing in the body, when and how to perform the moves – they have to practice on a teacher before they are let loose on the animals!

Raquel and Bron (pictured right) work on a grateful working dog. It is lovely how the animals always thank you for helping them. The responses in the animals is always joyful to see.

As we had a 6 day class and with qualified EMRT® practitioners at hand we used this wonderful opportunity to document the changes with the Equus College Research Equipment to show the changes in the animal both 4 and 2 legged.
